COURSE NAME: A CERTIFICATE COURSE IN ADVANCED CLINICAL TRIALS AND PHARMACOVIGILANCE PRACTICES

The present Certificate course of clinical trial and pharmacovigilance has been design in such a way to make all pharmacy students mindful and market ready for the opportunities available for the said subjects.

The sequence of courses, Design and Conduct of Clinical Trials and pharmacovigilance, is designed with the intent that the student takes both classes. In Design and Conduct of Clinical Trials and pharmacovigilance, the student will learn the ethics, principles and conduct of clinical trials for medical research.

The protection of study participants and the need for equipoise will be covered, including regulatory restrictions and the latest patient privacy regulations for the dissemination and use of data associated with the participants in clinical trials and pharmacovigilance. Various study designs will be discussed. The importance of equipoise, informed consent, and the use of intent-to-treat analysis will be emphasized.

Data collection and management for the conduct of clinical trials and pharmacovigilance will be briefly addressed. The roles of the Institutional Review Board (IRB), Data Monitoring Committee (DMC) and in the approval and review of ongoing clinical trials will be discussed. Student will be guided to improve their personality and make them aware about the market scenario.

COURSE NAME: A CERTIFICATE COURSE IN ADVANCED CLINICAL TRIALS AND PHARMACOVIGILANCE PRACTICES

The present Certificate course of clinical trial and pharmacovigilance has been design in such a way to make all pharmacy students mindful and market ready for the opportunities available for the said subjects.

The sequence of courses, Design and Conduct of Clinical Trials and pharmacovigilance, is designed with the intent that the student takes both classes. In Design and Conduct of Clinical Trials and pharmacovigilance, the student will learn the ethics, principles and conduct of clinical trials for medical research.

The protection of study participants and the need for equipoise will be covered, including regulatory restrictions and the latest patient privacy regulations for the dissemination and use of data associated with the participants in clinical trials and pharmacovigilance. Various study designs will be discussed. The importance of equipoise, informed consent, and the use of intent-to-treat analysis will be emphasized.

Data collection and management for the conduct of clinical trials and pharmacovigilance will be briefly addressed. The roles of the Institutional Review Board (IRB), Data Monitoring Committee (DMC) and in the approval and review of ongoing clinical trials will be discussed. Student will be guided to improve their personality and make them aware about the market scenario.

COLLEGE OF PHARMACY
Wandavgan Pharata, Tal. Shirur, Dist. Pune 412211

COURSE NAME: A CERTIFICATE COURSE IN ADVANCED CLINICAL TRIALS AND PHARMACOVIGILANCE PRACTICES

The present Certificate course of clinical trial and pharmacovigilance has been design in such a way to make all pharmacy students mindful and market ready for the opportunities available for the said subjects.

The sequence of courses, Design and Conduct of Clinical Trials and pharmacovigilance, is designed with the intent that the student takes both classes. In Design and Conduct of Clinical Trials and pharmacovigilance, the student will learn the ethics, principles and conduct of clinical trials for medical research.

The protection of study participants and the need for equipoise will be covered, including regulatory restrictions and the latest patient privacy regulations for the dissemination and use of data associated with the participants in clinical trials and pharmacovigilance. Various study designs will be discussed. The importance of equipoise, informed consent, and the use of intent-to-treat analysis will be emphasized.

Data collection and management for the conduct of clinical trials and pharmacovigilance will be briefly addressed. The roles of the Institutional Review Board (IRB), Data Monitoring Committee (DMC) and in the approval and review of ongoing clinical trials will be discussed. Student will be guided to improve their personality and make them aware about the market scenario.

Syllabus of QbD (2020-21)

QUALITY BY DESIGN

Course Duration: 15 contacts hours

Course Outcomes

Upon successful completion of certificate course, the student will be able to:

1. Robust analytical method development.
2. Understand life cycle of analytical method development.
3. Provides insights upstream throughout the development process.
4. Intended to increase process and product understanding and thereby decrease patient risk.
5. Understand to optimize formulation efficiently with less trials.

Details of Topics

Sr. No	Name of Topic	Hours
1	Introduction to QbD, Introduction to Simulation Software (Design Expert 8), Design of Experiment (DoE), Analytical Method Development (HPLC/UV-Vis Spectrophotometry/Dissolution/Formulation)	4 hrs
2	Factorial Design 1. 2 Level Factorial Design 2. Min-Run Equireplicated Res V Design 3. Min-Run Equireplicated Res IV Design 4. Resolution V Irregular Fraction Design 5. General Factorial Design 6. Optimal Design 7. Plackett-Burman Design 8. Taguchi OA Design	4 hrs
3	Response Surface Design 1. Central Composite Design 2. Box-Behnken Design 3. One Factor Design 4. 3-Level Factorial Design 5. Optimal Design 6. User-Defined Design 7. Historical Data Design	4hrs
4	Mixture Design 1. Simplex Lattice Design 2. Simplex Centroid Design 3. Screening Design 4. Optimal Design 5. User-Define Design 6. Historical Data Design Combined Design 1. Optimal Design - User-Defined Designing	4 hrs

COURSE NAME: A CERTIFICATE COURSE IN ADVANCED CLINICAL TRIALS AND PHARMACOVIGILANCE PRACTICES

The present Certificate course of clinical trial and pharmacovigilance has been design in such a way to make all pharmacy students mindful and market ready for the opportunities available for the said subjects.

The sequence of courses, Design and Conduct of Clinical Trials and pharmacovigilance, is designed with the intent that the student takes both classes. In Design and Conduct of Clinical Trials and pharmacovigilance, the student will learn the ethics, principles and conduct of clinical trials for medical research.

The protection of study participants and the need for equipoise will be covered, including regulatory restrictions and the latest patient privacy regulations for the dissemination and use of data associated with the participants in clinical trials and pharmacovigilance. Various study designs will be discussed. The importance of equipoise, informed consent, and the use of intent-to-treat analysis will be emphasized.

Data collection and management for the conduct of clinical trials and pharmacovigilance will be briefly addressed. The roles of the Institutional Review Board (IRB), Data Monitoring Committee (DMC) and in the approval and review of ongoing clinical trials will be discussed. Student will be guided to improve their personality and make them aware about the market scenario.

  PRINCIPAL SHRI WAGHESHWAR GRAMVIKAS PRATISTHAN'S LOKNETE SHRI DADAPATIL PHARATE COLLEGE OF PHARMACY Mandavgan Pharata, Tal. Shirur, Dist. Pune 412211 Principal Dr. H. V. Kamble		

COURSE NAME: A CERTIFICATE COURSE IN ADVANCED CLINICAL TRIALS AND PHARMACOVIGILANCE PRACTICES

The present Certificate course of clinical trial and pharmacovigilance has been design in such a way to make all pharmacy students mindful and market ready for the opportunities available for the said subjects.

The sequence of courses, Design and Conduct of Clinical Trials and pharmacovigilance, is designed with the intent that the student takes both classes. In Design and Conduct of Clinical Trials and pharmacovigilance, the student will learn the ethics, principles and conduct of clinical trials for medical research.

The protection of study participants and the need for equipoise will be covered, including regulatory restrictions and the latest patient privacy regulations for the dissemination and use of data associated with the participants in clinical trials and pharmacovigilance. Various study designs will be discussed. The importance of equipoise, informed consent, and the use of intent-to-treat analysis will be emphasized.

Data collection and management for the conduct of clinical trials and pharmacovigilance will be briefly addressed. The roles of the Institutional Review Board (IRB), Data Monitoring Committee (DMC) and in the approval and review of ongoing clinical trials will be discussed. Student will be guided to improve their personality and make them aware about the market scenario.

A. COURSE DURATION: 2 MONTHS
