(QIM) 7.1.2: The Institution has facilities and initiatives for Alternate sources of energy and energy conservation measures

Waste Management steps including:

Solid waste management:

Wooden box are provided labeled with "Glass Waste Only". The glassware waste is collected by campus maintenance team and doped properly. The chemical safety data sheet is referred for disposal of chemicals. Chemical Safety Manual is prepared by college and is available on website and in laboratories giving guidelines for proper handling & storage of chemicals and minimizing generation of chemical waste. Students are counseled on proper handling and use of chemicals to prevent generation of chemical waste. Non-teaching staff members are promoted to attend workshop on GLP.

Liquid waste management:

The liquid waste generated from laboratories/cleaning/washing/housekeeping and disinfecting activities is directed through proper channels to the effluent treatment plant available in campus. Concentrated and dilute acids and alkalis are washed down drains with excess water. Liquid solvents are distilled and reused wherever possible. Fume hoods have been installed in the Pharmaceutical Chemistry laboratory for disposal of harmful fumes of organic solvents.

Biomedical waste management:

College has obtained membership of Life Secure Enterprises Ltd., authorized by MPCB, for Bio-medical waste disposal.

E-waste management:

The college has tie-up with Prabhunath Traders and Maharashtra Pollution Control Board for e-waste management. E-wastes such as computers, scanner, printer etc. are collected and handed over to prabhunath traders through purchase section of SWGP,s.

Waste recycling system:

The campus generates liquid waste from various sources in campus like the buildings of the institute, hostels and canteens. This waste is treated in dedicated sewage treatment plant with a capacity of 14000 lit/day installed in the campus.

Later this water is utilized for non-drinking applications like gardening and watering the pathways and washing floors etc., in the campus.

Hazardous chemicals and radioactive waste management:

Hazardous waste is a waste that is dangerous or potentially harmful to our health or the environment. Hazardous wastes can be liquids, solids, gases, or sludges. The faculty members also direct and scrutinize the students for careful use and handling of chemicals in various laboratories. Fuming chambers are provided in the laboratories for the proper disposal of hazardous fumes. There is a prohibition of use and burning of plastic in the campus. They can be discarded commercial products, like cleaning fluids or pesticides. We are not using radioactive substance for the practicals in pharmacy.

Policy document on Green Campus

The initiatives of Arts, Commerce, Science and Computer Science college are devoted to champion the conservation and promotion of life on earth.

Standard Operating Procedure of Green Campus for operational practice developed to control the pollutant discharges by using routine maintenance procedures for mowing and debris control.

Implementation of SOP:

MAINTENANCE OF GARDEN/GREEN AREA

- STEP 1: Plants/Tree Care: Regular watering of plants and lawn. Pruning of trees and plants/shrubs as and when required. Regular mowing and sweeping of lawn. Removal of garden refuse from garden to the designated place. Conversion of garden garbage to compost its use as manure. Encourage plantation of seasonal flowers and trees. Report damage/compromise to landscape areas or bare areas void of vegetation that may result in sediment being transported off site; prepare a repair schedule and implement repairs fortnightly.
- STEP 2: Lawn Care and Signage in Garden proper maintenance of garden benches, if any. Educate students to respect the utility of the lawns. Classify trees and plants by proper signage and prepare report monthly.

PROCEDURE MAINTENANCE FOR GARDENING

- Civil Engineer/ Site Engineer instruct to supervisor of the Garden about gardening maintenance.
- Supervisor instruct to labour (Maali) about gardening maintenance.
- A supervisor verifies the given assignment to the labour every day. He prepares a report and submits to Site Engineer.
- Site Engineer makes report based on supervisor report and submits to Green campus In-charge.

- Green campuses I/C prepare a report based on site Engineer report and submit to the Campus Director/ Principal.
-

AUDIT

- The intention of organizing Green/Energy/Water Audit is to upgrade the environment condition in and around the institutes, colleges, companies and other organizations.
 - Awareness program related to green campus initiative should be conducted.
 - The objective of carrying out Green/Energy/Water Audit is securing the environment and cut down the threats posed to human health.
 - To make sure that rules and regulations are taken care of
 - To avoid the interruptions in environment that are more difficult to handle and their correction requires high cost.
 - To suggest the best protocols for adding to sustainable development
 - Yearly audit should be done.
-

PLASTIC BAN POLICY

- Ban on the use of plastic in all important parts of College.
 - Awareness program related to Ban on use of plastic should be conducted.
 - To all teaching and non teaching staff ban on plastic is mandatory.
 - Promote to all staff as well as students to use alternate solution om plastic viz use of paper folders, jute files, cloth bags, etc.
-

COLLECTION AND SEGREGATION OF GENERATED WASTE

- Say NO to Plastics: The first and most critical element for success of waste management is the rejection of non-biodegradable materials such as plastic covers and plastic bottles etc.
- Say Yes to Plastic Alternatives: Instead of plastic, utilize biodegradable materials such as cloth bags, jute baskets, reusable bags, reusable glass bottles etc.
- Process for replacing plastic bottles and bags:
- Assess the current usage of plastic bottles and bags through a survey form, observation from the collected waste and general usage across the institutions.
- Deliver a one week notice to everyone in the institution to eliminate all their current non-recyclable plastic bottles and bags as well as to ban the carrying of plastic bottles or bags.

PRINCIPAL
SRI CHANDRA SHEKHAR JOSHI
COLLEGE OF ENGINEERING
Hindurgher Pharata, Tal. Shirur, Dist. Pune 412211

- Arrange collection points at all convenient locations to collect discarded bottles and bags.
- Arrange cloth and paper bag counters across the institution for anyone to purchase if required.
- The Principles of 'Refuse' and 'Reuse' will be promoted for eliminating usage of plastic in the Institutions.
- All the bags will be checked at the entrances of the Institution for any possible plastic bags or bottles being brought in and have they replaced with paper, cloth or jute bags.
- Segregation of the waste at source i.e. primary segregation will be executed at the laboratory, household, hostel kitchen, hostel dining halls, and canteen levels.
- Appropriate bins should be placed at every feasible location in Institutions i.e. wet waste in green bin, recyclable waste in blue bin, and hazardous waste in the red bin. Have a hazardous materials logo on the red bin to prevent its use for disposing e-waste.

WET WASTE TREATMENT:-

- Green Campus In-charge should instruct to girls & Boys hostel mess and Canteen manager about wet waste treatment.
- Waste, particularly from kitchen, such as vegetable refuses, food scraps, etc. is wet waste. Wet waste is to be sent for composting using aerobic or anaerobic methods.
- Aerobic Method: Windrow composting, vermi-composting, and NADEP composting are some of the popular methods.
- A list of useful guides that explain each of these methods is provided in the web links below and can be employed by the campus.

Guidelines for Ban of Plastic Use in Higher Education Institutions

Introduction

Plastic pollution is currently one of the biggest environmental concerns. The short-term benefits and convenience of plastic and plastic goods have led to a boom in the production and consumption of plastic. Over the past century, excess-consumption of plastic has surpassed management of plastic waste and led it to become a scourge to the planet. Plastic is a menace that impacts not the environment as well as our health and wellbeing. We have all contributed to this problem, knowingly and unknowingly and we must work to reduce and eliminate plastic pollution.

Government has decided to take plastic ban as a national level campaign to address the environmental hazards being caused by the indiscriminate use of plastic. Educational institutions must lead this nation-wide endeavour. There is a need for educational institutions to actively contribute to the effort of banning the use of single use plastics.

Guidelines

This guideline intends to help Indian HEIs to achieve plastic free campus. It is not meant to be exhaustive but to provide directions and tips which shall be applicable to all institutions in general. The guidelines encourage universities to adopt policies and practices towards cleaner and plastic free campuses.

- All institutions to carry out awareness drives and sensitising workshops on the harmful impacts of single use plastics.
- Ensure plastic-free campuses in the institutions. Students and faculty must work towards this in mission mode. Usage of plastics should be stopped in canteens, shopping complexes in the institution's premises and hostels, etc. Students may not be permitted to bring non-bio-degradable plastic items to the institution
- Every student will strive to make his/her household plastic free.
- Students to be incentivised to carry out similar campaigns at community level
- Installation of necessary alternative facilities like water units to avoid the purchase and use of plastic water bottles.
- Ensure presence of alternative solutions like cloth bags etc., to plastic bottles, covers and other goods on campuses.
- Conducting events and poster competitions etc. on designing ecological and environment friendly goods to minimise the use of single use plastic.

Nature of Activity: Extension Activity by National Service Scheme (NSS) Unit

Swachh Bharat Abhiyan outdoor session is conducted by the undergraduate students. The purpose of the session is to make aware to make the country a clean and developed country and influence students learning & retrieval.

Background:

In the present days plastic waste is a growing issue everywhere around the world. Even though it is undeniable that plastic provides various benefits to our society, it is not enough to say that we overuse it without thinking about the consequences. The unfortunate truth is that recycling plastic is extremely inefficient only about 9% of plastic ever produced has been recycled, and around 60% of plastic is discarded in landfills and oceans. Because of this, reducing the use of plastic is essential

Objective(s) of the Activity: Objectives of the session was to

1. Improving the quality of life in rural areas through cleanliness and personal hygiene
2. Create awareness among communities towards contribution of plastic waste to climate change.
3. To bring about behavioral changes in the people towards benefits of reducing plastic waste.
4. Motivating the communities for adopting a proper recycling plastic waste for better health and life
5. To tell people how sanitation is linked to their overall health and happiness.
6. To encourage and acknowledge new technological innovation in the field of reducing plastic waste
