Principal

**7.2.1. Describe two best practices successfully implemented by the institution as per NAAC format**

**Best Practices**

**Eco Friendly Green Campus**

**Aim**

A Green Campus is a place tangible companionable practices and instruction integrate to advance tenable and environmental practices.

**Objectives**

Our primary goal in implementing this green campus program is to ensure that there will be enough resources, and water for future generations. We definitely eliminate soil erosion, air pollution, and water pollution with this comprehensive baking.

**Best Practices**

- Student centric activities like hands on training, value added courses, value education courses, industrial tours and trainings.
- Safety measures activities like chemical hazards handling training to non- teaching/ supportive staff and students.
- ICT enable technique as a innovative teaching learning methods.
- Environmental nurturing activity through recycling and reuse the solvent, sock pit method for disposal of chemicals.
- Innovative and socially use research project.
- Planting and added plant life on campus by institute administration can help to weaken air dirtiness and enhance the overall environment.
- We are easily maintaining the good health of trees by promoting college students through earn and learn scheme.
- Rain water reaping and seepage has enhanced ground level of water and increased water preservation.
- We celebrate Thursday of every week as GREEN THURSDAY purpose behind this activity to create awareness among students and staff.
- Energy waste management is also equally important for eco-friendly campus, we perform EFFICIENT USE OF ENERGY implementation of this activity by usage of LED bulbs and tubes in college campus and in hostel also.

Founder Secretary

**Dr. H. V. Kamble**  
Principal

- Maintain waste disposal management by putting separate dustbin for dry waste and wet waste and finally we decompose them out coming of that we used that as compost for plant.
- Zero tolerance campus.

**Evidence of Success**

All of these initiatives demonstrated that faculty and staff understand the value of maintaining a green campus. And they are aware of their part and duties in doing the same.

**Problem encountered**

At first, students are ignorant of how their daily actions contribute to the upkeep of the ECO FRIENDLY GREEN CAMPUS; they are uninformed of the small adjustments that may be made by inspiring and teaching them. Ways to reduce the effects of global warming.
